

Inside the Victorian house

Night nursery

This is where I go to sleep. I'm the oldest so I get the big bed. My little sister sleeps in the half cot.

Day nursery

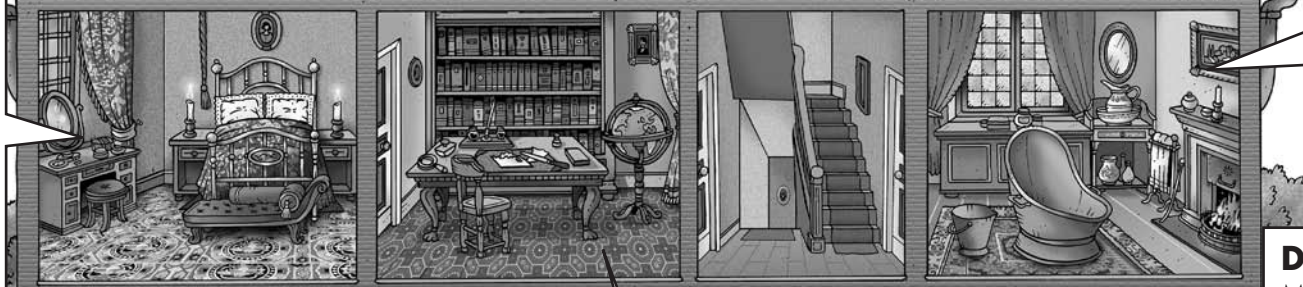

I like this room because it is full of toys and games! Sometimes the governess visits and makes us do writing and arithmetic. We use slate and chalk to write down what we learn.

Bathroom

We have a maid who fills the bath with hot water from the kitchen. The fireplace helps to keep the water warm, because my sister and I have to share it.

Master bedroom

This is where my parents sleep. Mother and Father have their own wardrobes, full of clothes. The maid has to help Mother get dressed because of all the buttons and laces.

Drawing room

My sister and I can only come in here if we promise to be quiet. This is where Mother and Father entertain guests. They like to play cards or tell stories.

Kitchen

It is always busy in the kitchen. Cook spends hours making all our meals. Then she has to wash all the pots and pans. I like it in here because it smells of puddings and pies!

Dining room

This is where we eat breakfast, lunch and dinner. If Mother and Father have guests for dinner, my sister and I have to eat in the kitchen.

Library

I'm not allowed in here. This is where Father keeps all his important books. Sometimes he sits at the big desk to read his letters.

Hello!
My name is Edward and this is my home. Let me show you around.
