

Ten green dragons

In the cave dwelt dragons ten.
One fell fighting four horsemen.

In the cave dwelt dragons nine.
One went down the deep, dark mine.

In the cave dwelt dragons eight.
Two forgot to hibernate.

In the cave dwelt dragons six.
One dropped dead from politics.

In the cave dwelt dragons five.
One took a dive in overdrive.

In the cave dwelt dragons four.
One got struck by a meteor.

In the cave dwelt dragons three.
One ran off with a chimpanzee.

In the cave dwelt dragons two.
One went onto the King's menu.

In the cave dwelt dragons one.
Laid ten eggs and then was gone.
