

How to make a bird finger puppet

1. Cut out the bird shape below.
2. Carefully decorate the bird. Look in some non-fiction books to help you colour in your bird.
3. Roll a strip of paper around your finger to make a ring. Use sticky tape to fix it.
4. Attach the ring to the underside of your bird.
5. Place your finger through the ring and take your bird for a fly!
