

BATTLE BUGS

DID YOU KNOW

A fear
of spiders
is called
Arachnophobia

How many of these
bug facts did
you know?

One out
of every
four animals
on earth is
a beetle!

Some of the
largest species
of spider have
been known to
kill larger animals
such as mice and
lizards!

Scorpions
glow under
ultraviolet
light

There are
over 1,500
species of
scorpion in
existence

The
Hornet is
the largest
wasp in the
British Isles

The Scarab
beetle is the
largest species
of beetle, and can
support 850 times
its own weight

Hornets
usually only
attack if their
colony is
threatened
