

Name: \_\_\_\_\_

- 1 When a sentence begins with a time element, a comma is recorded directly after – before the sentence continues. For example: 'In the past, only natural materials were used to make clothing.' Record a comma after the following time element and then complete the sentence by referring to the page number.

a (page 4) Before people discovered natural fibres \_\_\_\_\_

\_\_\_\_\_

b (page 4) As civilisations developed \_\_\_\_\_

\_\_\_\_\_

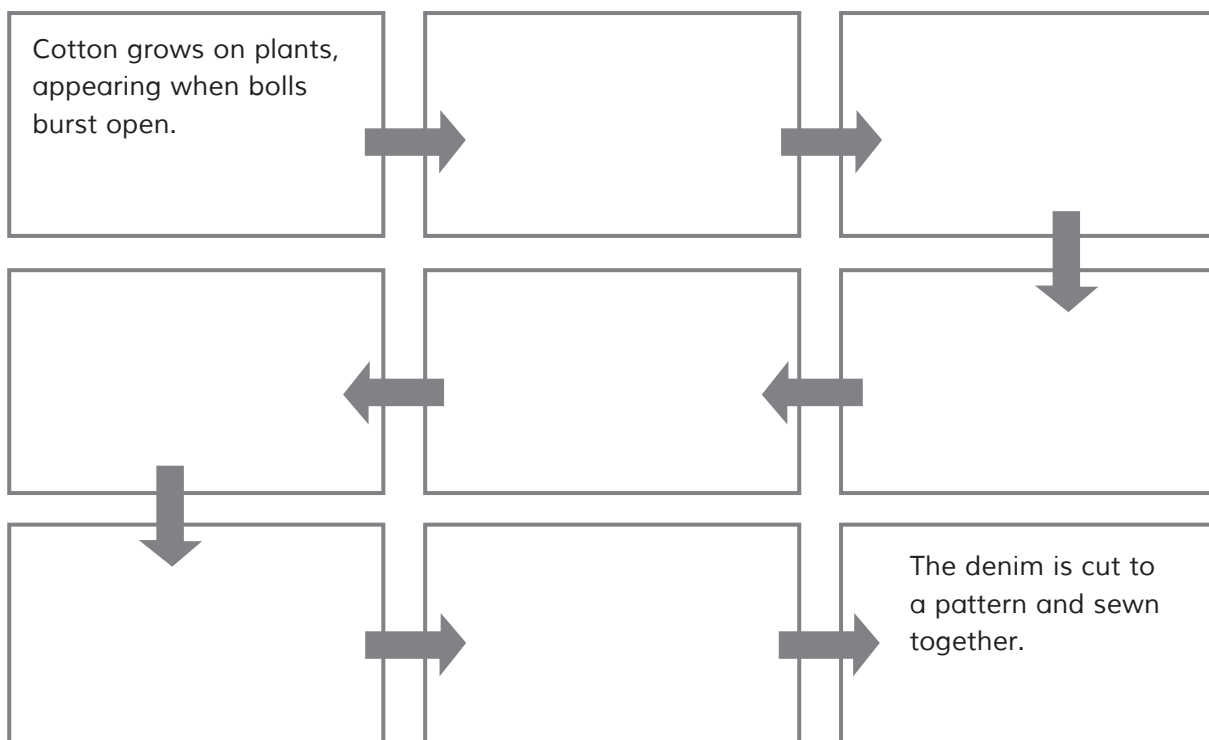

c (page 9) In the Middle Ages \_\_\_\_\_

\_\_\_\_\_

d (page 13) In ancient times \_\_\_\_\_

- 2 Draw a story map that shows the process that starts with cotton growing and ends with a pair of jeans. You will need to refer to the information on pages 6-10 and you will need to sequence this information. There is one box for each step of the process.

Looking back and making connections

You have decided to become a farmer! Will you become a sheep farmer producing wool, or a crop farmer producing cotton? On the back of this sheet, weigh up the pros and cons. Write a paragraph explaining your decision.

Name: \_\_\_\_\_

- 1 Draw arrows to match the fibres to their sources, properties and origins. Use a different colour for each fibre.

Fibre	Source	Properties	Origins
Cotton	Recycled bottles	Soft and warm	Ancient Egypt
Polar fleece	Sheep	Rich and lustrous	60 years ago
Wool	Made from chemicals	Stretchy and strong	1990s
Nylon	A species of worm	Quick to dry, doesn't crease	India, over 5000 years ago
Silk	Made from chemicals	Soft and warm	70 years ago
Polyester	Grows on plants	Creases easily, difficult to dye	6000 years ago
Linen	Flax plant	Doesn't hold heat	China, thousands of years ago

- 2 Sort the topic words into the categories below. Don't cross off the words as you go, because they can be used more than once.

<i>absorbs</i>	<i>bales</i>	<i>bolts</i>	<i>crimped</i>	<i>fleece</i>
<i>lustrous</i>	<i>manufacturers</i>	<i>microfibres</i>	<i>mill</i>	<i>natural</i>
<i>pleating</i>	<i>processed</i>	<i>resistant</i>	<i>seams</i>	<i>spinneret</i>
<i>strands</i>	<i>synthetic</i>	<i>technologies</i>	<i>yarn</i>	<i>nylon</i>
