

Making a Mobile

Name: _____

How well have you read the text? Answer these questions in full sentences.

How long is the stick that everything hangs from?

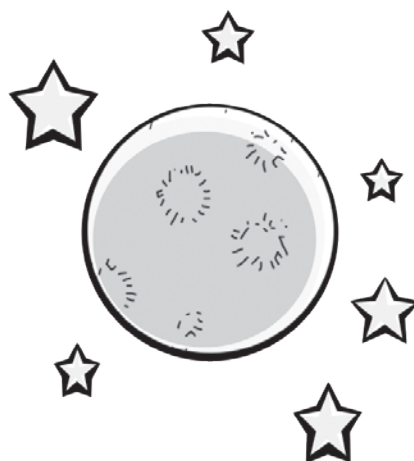

What was the first thing the boy did to make his mobile?

What sort of paint did the boy put on the moon and the stars?

Why did the boy link all the paper clips together?

What did the boy tie to the end of each of the strings?

What will happen to the stars and moons when it is dark?

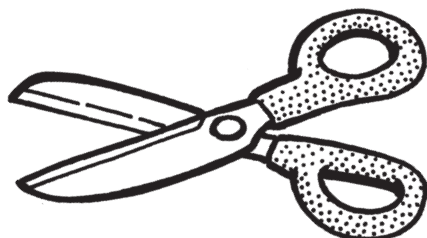

Making a Mobile

Name: _____

Cut and paste the steps for making the mobile into the correct order.

Tie the paper clips to the middle of the string.
Tie a cardboard roll onto the end of each of the strings.
Put some silver foil around the stick.
Draw some moons and stars on the cardboard.
Tie all the moons and CDs onto the bits of string, too.
Cut out the moon and the stars. Make a little hole with the pencil in each one.
Put all the paper clips together to make a long chain.
Paint both sides of the moons and the stars.
Cut the string into bits. Make one bit 10cm long, two bits 80cm long and two bits 100cm long.
Paint some little moons and stars on the CDs and the cardboard rolls.
Put a yellow star into each long bit of string. Push the string through the holes in the stars and tie it tight.

Find a place to hang your new mobile.

Tie the strings with the stars, moons, CDs and cardboard rolls onto the stick.
