Winter is a cold time,
and we put on warm ings.

If you go for a walk in winter,
look at the ees.

Some trees still have een leaves.

Some trees have old own leaves
or no leaves at all.

Our garden birds get hungry.

Some birds will eat bread and others
will eat uit and nuts.

Some animals leep for a long time.

Snails ay inside their shells.

At the end of the winter, the days get longer
and the first spring owers come out.

Walking in the Winter

Name: _____

In cold winters, some little animals **hibernate**.
Draw and write about two little animals
that **hibernate** in cold winters.
