ink

ace

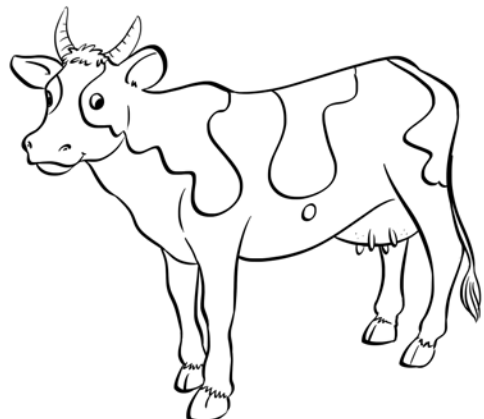

Add 'ing' to these words to make a new word.

milk _____

walk _____

work _____

help _____

Name: _____

Cut out these sentences and paste them in order on another piece of paper. Include a drawing for each step to show what happens in a typical milking session.

Before the machines are put on the cows, the farmers wash under the cow's stomach.

The farmers clean the milking machines with hot water.

Every morning, dairy farmers get up very early.

Machines are attached to the cows and their milk is removed.

The milk is kept cold in a tank until a big truck takes it away to a factory.

The farmers wash the floors and the yard outside with big hoses.

They bring the cows to the milking shed so they can be milked.

After the cows have been milked, they walk slowly back to a field.
