Circle which of the two steps comes first in each pair.

Put one hand under the ball.

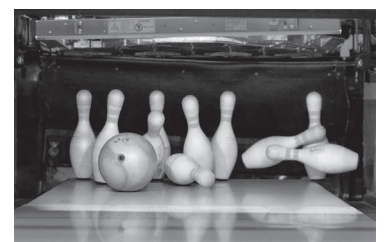

Then, put the thumb of your other hand in the biggest hole on the ball.

To bowl the ball, take four or five steps towards the start of the lane.

Watch the ball as it rolls down the lane.  
A computer will count how many pins you knock over.

Find a bowling ball that is right for you.  
Your ball should not be too heavy or too light.

Stand four or five steps behind  
the start of the bowling lane.  
Face towards the ten pins.

Move away from the lane  
so the next player can have a turn.

When the ball is close to the  
floor, let it go and roll it towards  
the pins.

Before you start playing,  
put your bowling shoes on.
