A sheet of thin plastic	
A wooden hoop	
A marker pen	
A pair of scissors	
Sticky tape	
A ball of string	
A ruler	
2 small toys	

Making a Toy Parachute

Name: _____

Number the boxes to correctly order the steps from the procedure.

Tie the four strings together in a big knot at the bottom of the parachute.	
Make a hole on each mark with the scissors.	
Draw a circle with the pen around the inside of the loop.	
Push the strings into the four holes. Tie a knot at the end of each string.	
Put the sheet of plastic on the table. Then, put the wooden hoop on top of it.	
Cut four long strings from the ball.	
Make four little marks with the pen around the outside of the circle.	
Put some tape on top of the marks.	
Lift the hoop off the sheet of plastic.	
Tie the other end of the string to the parachute. Your parachute and toy are ready to fly!	
Cut carefully around the circle on the plastic.	
Cut 20 cm of string from the ball and tie it around the middle of one of the little toys.
