

Sheep

Name: _____

Rewrite the glossary words in alphabetical order.

graze

shepherds

bacteria

factory

Write your own glossary meaning for *fleece*.

Find four other words in the book that have 'ee' in them.

_____	_____
_____	_____

Sheep

Name: _____

Number the sentences from the 'Caring for Ewes and Lambs' section of the book in the correct order.

Inside the sheds, the lambs are safe from animals that might try to attack them.

But sometimes, farmers put the ewes and their newborn lambs in sheds to keep them warm and dry.

The farmer can give these lambs to another ewe to care for.

Most of the time, sheep live in grassy fields on farms.

Some lambs do not get enough milk to drink.

Sheep

Name: _____

Circle the most important sentence in each paragraph.

Sheep graze on grass and other plants.

They do not chew the grass very well
before they swallow it.

Sheep have four stomachs.

When they eat grass, it goes into the first stomach.

Long ago, there were wild sheep that lived in places
where the winters were very cold.

Their thick wool kept them warm.

What do you notice about the sentences you circled?
