# Seals of the Antarctic

Name: \_\_\_\_\_

4. Write the labels in the correct places on the photo.

ear flap	front flipper	tail flipper	sleek body
----------	---------------	--------------	------------

5. Circle the proper nouns and noun groups in blue. Circle the common nouns and noun groups in red.

Four kinds of seals live on the ice and in the waters around Antarctica.

They are crabeater seals, leopard seals, Ross seals and Weddell seals.

Two other kinds of seals are found on islands in the Antarctic.

6. Write two other proper nouns of your own.
