

Organic chemistry

REVIEW IT!

1 Give the monomers that form the following natural polymers:

- a DNA
- b Proteins
- c Starch and cellulose.

2 a Give the structures of the repeating units of the polymer formed from the following monomers:

iii $\text{HOOCCH}_2\text{COOH}$ and $\text{HOCH}_2\text{CH}_2\text{OH}$

b Draw the structures of the monomers that form the following polymers:
