

Name: _____

Labelling

Often when we look at diagrams they are labelled to assist us to recognise the various parts. Eratosthenes has not labelled his diagram on the kitchen table. Refer to the copy of his diagram below and label it using the following terminology: circumference, vertex, angle, protractor, centre point. You may use a dictionary to assist you.

Going further

Design a glossary by creating your own definitions for each of the following terms:

- angle
- centre point
- circumference
- protractor
- vertex

Name: _____

Write and draw

Eratosthenes made many mathematical discoveries. Use the Internet and other available resources to find out about these discoveries. Write and draw them on this ancient scroll.
