

How to make the minibooks

1. Photocopy the book pages onto A4 paper.
2. Fold the front and back cover sheet in half. Keep the fold line to the left-hand side.
3. Fold the inner pages in half. This time the fold line will be on the right-hand side.
4. Place the inner pages inside the cover.
5. Either staple or sew along the spine.

Cut out the pages and fold together to make the book before sharing with your child.
