

Adding & Taking Away GAMES

One more, one less

You need: 11 pieces of paper, small objects from around your home.

How to play:

- Write numbers 0–10 on pieces of paper (one number on each piece).
- Make a number line using the numbered pieces of paper.
- Ask an adult to say a number.
- Count and jump along beside the number line to the correct number.

- Now ask an adult to say “one more” or “one less”.
- Find the correct number of objects from around your home to match the answer. For example, 3 socks or 6 spoons.

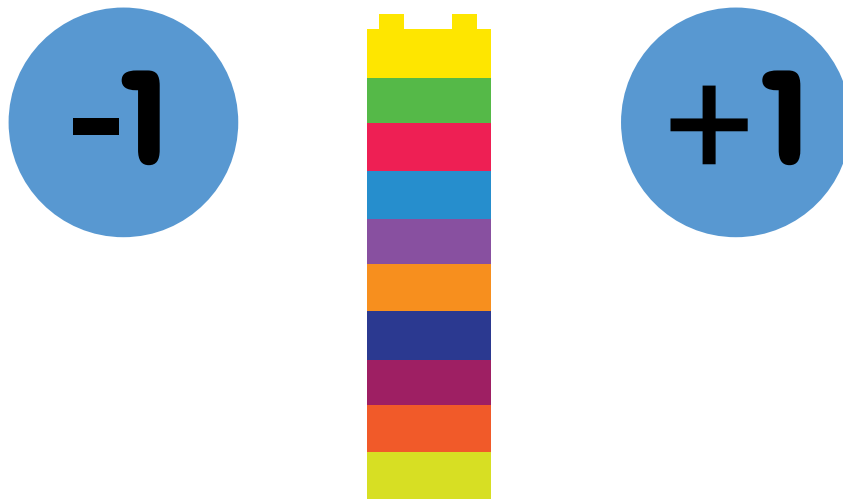

- Say a number sentence for the number of objects. For example, “One more than 2 socks is 3 socks.” or “One less than 6 spoons is 5 spoons.”
- You could try adding or taking away more objects and saying the number sentence each time using the number line to help you.

Building blocks

You need: Blocks to stack, a counter or coin.

How to play:

- Write +1 on one side of your counter and -1 on the other side.
- Build a tower using your blocks up to at least 10.
- Flip the counter.
- Take one block away if it lands on -1 or add a block if it lands on +1.
- Count how many blocks are in the tower now.
- Say the number sentence out loud. For example, "One more than 6 is 7." or "One less than 4 is 3."
- Repeat.

What's the score?

You need: a 1–6 dice.

How to play:

- Roll the dice and write the number down.

- Roll the dice again.

- Add the spots together.
- Say the addition out loud. For example, "6 add 3 equals 9."
- Write the addition sum you did using + and =.

You need: a 1–6 dice.

How to play:

- Roll the dice and write the number down.

- Roll the dice again.

- Take away the smaller number from the larger number.
- Say the subtraction out loud. For example, "3 take away 2 equals 1."
- Write the subtraction you did using – and =. Remember to write the larger number first.
- What happens if both numbers are the same? Write this sum.

Bingo

You need: At least 2 players, bingo cards with 6 squares like the example.

How to play:

- Write any six numbers from 0–10 in the grid.

3	4	5
0	9	7

- Take turns to say an addition or take away number sentence that will give an answer from 0–10. For example, "10 take away 1."
- Work out the number sentence.
- If you have the matching number on your bingo card cross it off.
- Swap and repeat until someone crosses off all their numbers and shouts, "Bingo!"
